Cambridge NanoTech Adds Key Distribution Partner in Germany

HTT GmbH to sell and service industry-leading ALD systems

CAMBRIDGE, Mass., May 21, 2009 – [Cambridge NanoTech](#), the world leader in [Atomic Layer Deposition](#) (ALD) science and equipment for research and industry, today announced that it has signed a distribution agreement with [HTT GmbH](#) of Munich, Germany, to sell and service its full line of ALD equipment.

“We are pleased to have HTT as our partner in Germany and Austria,” said Jeremy Davis, Director of European Sales at Cambridge NanoTech Europe Ltd. “Their in-depth knowledge of thin film coatings, deposition processes, plus unparalleled expertise within the semiconductor industry complements and expands our sales, service, and support capability throughout Germany.”

According to Eberhard Siml, President at HTT GmbH, “For over 20 years we have been bringing world-class products, training, services, and support to our customers. By partnering with Cambridge NanoTech, we can now provide them with industry-leading Atomic Layer Deposition tools to help advance their nanotechnology development and applications.”

About Cambridge NanoTech

Cambridge NanoTech focuses on simplifying the science of [atomic layer deposition](#) for customers worldwide — from universities to the largest corporations — by delivering comprehensive services and versatile, turnkey systems that are accessible, affordable and accurate to the atomic scale. Cambridge NanoTech, founded in 2003, grew directly out of Gordon Lab at Harvard University, one of the foremost ALD research groups in the world. Learn more at [www.cambridgenanotech.com](#).

About HTT GmbH

HTT (high tech trade) GmbH is a leading distribution organization providing sales, service, and support to the semiconductor industry in Europe. Founded in 1988, HTT GmbH is a privately owned company with headquarters in Munich, Germany. Learn more about HTT GmbH at <http://www.httgmbh.de>.
